

# DEALER SPOTLIGHT

Collector's Shangri-La, UACC Registered Dealer #310, is your paradise if you love pop culture artifacts. Whether your passion is autographed books, photos, comics, illustration art, or movie and television memorabilia, CollectorsShangri-La.com is one website you don't want to miss.

Started by life-long autograph hound and obsessive collector Kevin Segall, Collector's Shangri-La specializes in treasures from vintage Hollywood, horror, sci-fi, fantasy, lowbrow and comic art, and legendary icons of the entertainment world.

Praised by UACC President Michael Hecht, "Kevin Segall is the 'cool' autograph dealer. Sure, there are many dealers in 'ultra' moderns and popular culture. But Kevin is wired into that world. He knows that world, and their autographs. 'Moderns' are the toughest field to collect, and collectors need to visit Kevin's website and buy from him. He is so cool, occasionally he sprinkles some historical items on his website. Gems! All Gems!! In a world of inflated reputations and too many fakes, Kevin is the real thing, and the real autographs are at Kevin's website! Both get my highest recommendation!!"

Accredited through the International Society of Appraisers, Kevin received his initial degree in Modern Culture and Media from Brown University. For well over a decade, he was the webmaster for Bibliotopus, a long respected dealer in classic first edition books. He currently serves on the Board of Trustees for the Manuscript Society, and is a member of Ephemera Society of America, the National Cartoonists Society, and several other professional organizations. Kevin has been featured in Los Angeles Times, Playboy, Wired,

Time Magazine, the New Republic, and numerous other media outlets as an expert in pop culture memorabilia.

Collector's Shangri-La also specializes in the appraisal and authentication of non-sports autographs, art, and memorabilia. Their appraisals are USPAP-compliant and ideal for estate planning, taxes, insurance, and other purposes. They are also the official authenticator of autographs for PGX Professional Grading Experts, one of the leading comic book grading services.
